THE 

# VANDALIA

 LINE

*Invites attention to a FEW FACTS.*

FIRST—It is the shortest and quickest line between Indianapolis and St. Louis, and runs four fast express trains each way in addition to local accommodation trains.

SECOND—Pullman Vestibuled Sleeping Cars are carried on all through trains.

THIRD—The employes are uniformly polite and attentive.

FOURTH—All complaints of whatever character receive prompt and careful attention.

FIFTH—The mechanical excellence of the road-bed being constantly maintained, and the construction of the train equipments being of the latest and most substantial character, the highest speed can be made with perfect comfort and safety.

SIXTH—The new and beautiful dining cars, with their dainty china, rich silverware, spotless linen and bounteous bill of fare are a delight to travelers.

SEVENTH—Trains are run with remarkable regularity.

EIGHTH—For the above and other good reasons the United States Government has chosen the Vandalia Line or its Fast Mail Route between the East and West.

NINTH—Test the above statements by giving the line a trial.

For through rates, time of trains, sleeping car reservations or other information, call upon or address,

# INTRODUCTORY.

---

This is the thirty-sixth volume of the Indianapolis City Directory, and is the thirteenth consecutive volume issued by the present publishers. Thirty-six years is a long time, more than a generation. Since the first Directory of the city was issued one generation of business men has passed off the stage, if not across the dark river, and another generation has pressed forward to take their places. Probably not a single name contained in the first Directory of Indianapolis will be found in this one, unless it be of some person bearing the same name with one who has passed away.

The Directories of these thirty-six years would make a considerable library, and if carefully studied would reveal many curious and interesting things concerning the growth of the city. They also represent a large amount of painstaking labor and each one is an improvement on its predecessor in point of completeness, accuracy and reliability. These qualities are indeed the life of a city Directory, and it has been the aim of the publishers to embody them more and more in each successive publication. No Directory is absolutely perfect, but it is a good deal to be able to say that during a period of thirty-six years there has been steady improvement.

The present Directory contains 49,048 names against 48,282 in the last one. This includes all the suburbs of the city which properly and for all business purposes belong to it. These suburbs were not included in the United States Census of 1890, which therefore showed considerably less population than was indicated by the Directory of that year. At the rate of three persons to a name, which is a fair estimate, the present enumeration would give a population for the city and suburbs of 147,144 or deducting for the suburbs 17,000 would leave 130,144 for the city proper.

It may not be amiss for us to say that in the course of making the enumeration for this Directory, penetrating of course to every part of the city, our canvassers have found abundant proof of its steady and healthy growth. Not only is this apparent in its rapidly extending streets and suburban building improvements, but in the growth of its manufacturing industries, by the enlargement of old and the establishment of new ones. The statistics of the growth of the city in manufacturing would be very interesting and instructive. In this, as in all other respects, Indianapolis is easily holding her own among western cities and maintaining her place as the most prosperous inland city of the country.

To the representative business and professional men of this city, who by their patronage and support have aided us in producing this volume, we desire to return our thanks, and to those who never buy a Directory we would say, that in the future, as in the past, we will endeavor to have their information correctly but *briefly* inserted.

### COURTS.

The United States is divided into nine Judicial Circuits, in each of which a Circuit Court is held for each district within each circuit. The act of Congress approved April 10, 1869, provided as follows: "The Circuit Court in each circuit shall be held by the Justice of the Supreme Court allotted to the circuit, or by the Circuit Judge of the circuit, or by the District Judge of the district, sitting alone, or by the Justice of the Supreme Court and Circuit Judges sitting together, in which case the Justice of the Supreme Court shall preside, or in the absence of either of them, by the other (who shall preside), and the District Judge." The State of Indiana comprises one Judicial District. The courts for the district are held at Indianapolis, New Albany, Evansville and Ft. Wayne. The district is attached to the Seventh Judicial Circuit, which comprises the states of Wisconsin, Illinois and Indiana.

The United States Courts of the District of Indiana are organized as follows:

#### CIRCUIT COURT.

Associate Justice of the Supreme Court—Hon. John M. Harlan.

Circuit Judge—Hon. Walter Q. Gresham.

**Twenty-fifth Ward**—Bounded on the south by the corporation line, on the west by White River, on the north by McCarty street, on the east by Illinois street to Morris street, thence east on Morris street to Meridian street, and thence south on Meridian street and Bluff road to the corporation lines.

# DIRECTORY BORROWERS.

---

We receive many complaints from our patrons to the effect that they are bothered so much by **BORROWERS**. These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and vice versa, "everybody knows him."

## ADDITIONS, REMOVALS, ETC.,

RECEIVED TOO LATE FOR REGULAR INSERTION.

-

CHANCE-MATTHEWS  
**Printing Company,**

~~~~~  
**COMMERCIAL PRINTERS,**  
~~~~~

Telephone 1282.

NO. 9 Vance Block.

Indianapolis, Ind., 1890.

To the Business Fraternity,  
City.

Gentlemen--Being desirous of obtaining a share of your patronage, we briefly state a few of the inducements offered:

Our endeavor is to turn out a first-class grade of printing, and be satisfied with a small margin of profit. We employ only skilled workmen who are personally supervised by a practical member of the firm. To keep abreast of the times we use electricity as a motive power. Estimates are given as cheerfully on a two-dollar job as on one of a hundred dollars. We are always ready to call on you and submit prices. We guarantee to please. Our telephone number is 1282.

Should you send in an order without first obtaining an estimate, you can rest assured that you will be treated honestly.

Respectfully,

CHANCE-MATTHEWS PRINTING COMPANY.

**YOU**

Give us an Order,

**WE**

Do the Rest.

The Provident Life and Trust Co. of Philadelphia

## Endowment Insurance

Presents the double attraction of providing for dependents in case the insured should be cut off during the active period of his life, and providing for the insured in case he should reach old age.

 **FOR YOUNG LADIES.**

—————  
BOARDING AND DAY PUPILS.  
—————

**Thorough English Course**—Collegiate, Preparatory and Primary.

All the branches taught—French, German, Elocution, Drawing, Painting, Vocal and Instrumental Music, etc.

**The Indianapolis School of Art.**—The Art department of the Institute is under the charge of a thorough artist, and offers a complete course of training in all branches of drawing and painting; also instruction in decorative art.

**The Indianapolis Conservatory of Music.**—The Musical department of the Institute offers a course of instruction as complete and thorough as any school of music in the country.

Pupils received at any time for the full or for partial courses of study.

Diplomas awarded to graduates of the collegiate course, of the School of Art and of the Conservatory of Music.

Owing to growth of school, commodious new buildings have been erected containing every convenience for the accommodation and instruction of pupils.

**H**AVING had more than twelve years' successful experience in securing *Letters Patent*, and having also a thorough knowledge of *Mechanics* as well as Patent Law, we continue to offer our services to Inventors and Owners of Patent Property, confident of our ability to give entire satisfaction to those who desire the best protection available for their inventions.

We not only procure Patents, Trade Marks, Designs, Copyrights, Labels, and all forms of Protection granted by the United States and other Governments on works of Invention and Authorship, but we act as Counsel and Experts in litigated cases, or where litigation is expected or threatened. We also make investigations, when a determination of the validity or scope of any existing Patent is desired, upon which to base a purchase of such Patent, or a decision as to whether the manufacture or sale of the invention described in it can be safely undertaken.

TELEPHONE No. 168

The leading Inventors and Manufacturers of Indianapolis and vicinity are now and have been for years regular clients, as well as many from other portions of Indiana and other States, north, west and south.

One member of our firm spends a considerable portion of his time in Washington, D. C., and we thus have unsurpassed facilities for transacting our business. This arrangement gives our clients in this portion of the country the advantage of personal consultations with their attorneys, and also the advantage of the personal attendance of their attorneys at the Patent Office in the prosecution of their cases. We refer to the banks, express companies, mercantile agencies and leading manufacturers of Indianapolis. Inventors will find it to their interest to consult us. Promptness and efficiency guaranteed. Call or write for pamphlet. Charges always reasonable.

# CALIFORNIA

## ITS GREAT NATURAL WONDERS AND RESORTS

It sounds superfluous and redundant to speak of pleasure resorts in California, and in any event they must be considered only in a relative sense. To a visitor from the Eastern States the whole of California is one great pleasure resort at all times of the year. Custom and the necessities of the language have compelled the use of the terms "summer" and "winter" in California; whereas, except upon the very crest of the Sierra Nevada, there is no winter, and except in a few hot and arid spots no summer; all else is spring—soft, gentle and unfailling, with flowers in constant bloom. The fact that there are many pleasure resorts in California is the outgrowth of a local desire for change of scenery and climatic conditions, for the benefit brought by rest and the pursuit of pleasure, and for the medicinal effect of many mineral waters.

It is in the extraordinary variety of these resorts that their vitality lies. A resident of New York, visiting California for recreation, would find in almost any spot upon which he might alight all the perfect conditions for the pursuit of recreative pleasure,—bathing on the seashore, hunting, fishing and camping in the interior, or the brisker whirl of social pleasures in the larger towns and cities. But if he should become a resident the time would arrive when he might desire a change from the charms of his particular environment. If a resident of an inland city, the coast would allure him in summer; if he has settled in a coast town, the mountains will invite him to enjoy their marvelous beauties. To the permanent pleasure of living anywhere in California is added the close and ready means of enjoying other pleasures of a different kind; for in no other area of equal size may be found so many enticing resorts in such wonderful variety. A better understanding of this singular fact may be had by following us in a tour through the country from Oregon to San Diego, giving but the briefest glance at the more popular resorts as they rapidly are passing in review.

## THE SISKIYOU MOUNTAINS.

**S**UPPOSE, then, that we enter California by the Southern Pacific from Oregon. It is needless to describe the charming beauties of the Willamette, the Umpqua and the Rogue River valleys. We are not now looking for general beauties, which abound everywhere, but for fixed and popular resorts of pleasure-seekers. We might spend weeks of incomparable delight hunting and fishing in the Siskiyou Mountains; we might scale Mount Shasta and visit the many beautiful lakes of the Cascade and Siskiyou ranges. Soon after entering California the train stops at Ager; and thence we go by stage twenty miles to the Klamath Hot Springs, which lately have begun to attract hundreds of tourists. These remarkable springs of boiling mineral waters are situated in the valley of the Klamath, surrounded by all the glories of the northern mountains. A fine stone hotel affords comfortable entertainment for visitors; and in the vicinity are splendid hunting and fishing. If, as many tourists do, we should leave the railroad at Sisson, in Strawberry Valley, and make the ascent of Mount Shasta, we should behold a scene of indescribable beauty and grandeur.

MOUNT SHASTA

Standing nearly fifteen thousand feet above the level of the sea, we may see a wonderful country, covering a circle with a radius of hundreds of miles, and embracing many noted peaks, glistening lakes, long ranges of snow-capped mountains, and the far-off lava beds of the Modoc country. Every mile of this mountain trip from Roseburg in Oregon to Redding in California reveals extraordinary beauties unequalled by those of any other mountain range in the world; for here, instead of bleakness and desolation, are seen pictures which have received the kindest, noblest, grandest and most refreshing touches of Nature's prolific brush, from the delicate beauty of wild flowers to the snow-covered summit of Shasta. The Alpine Club of Portland has accomplished much in bringing to public notice the entrancing beauties of the mountain lakes, peaks and gorges of the Cascade and Siskiyou ranges.

The Strawberry Valley is the best point from which the McCloud River may be reached. This beautiful stream rises in the eastern flank of Mt. Shasta and flows southward, its waters finally reaching the Sacramento. It is on the McCloud River that probably the finest fishing and hunting in the West may be found. The river is and likely will forever remain a wild and uninhabited stream. As a consequence there is nothing except hunting and fishing parties to drive out the game and destroy the fish,—an extremely difficult task. The scenery is beautiful, and Mr. Sisson of Sisson has established a camp on the river for the accommodation of visitors. For those who enjoy an outing of this character, the McCloud River is an earthly paradise.

The mountains of the north abound in so many charms that it is difficult to make a selection for enumeration. The town of Sisson itself is one of the most popular

## WONDERFUL SPRINGS.

FROM these lakes we may return through Sacramento, and, passing through Napa and Calistoga, visit the Napa Soda Springs, the White Sulphur Springs, the Geysers and Clear Lake. These popular resorts are near together; and their great beauty and close proximity to San Francisco cause them to be thronged with visitors every summer. At the Napa Soda Springs there are elegant buildings for the accommodation of visitors. The springs are situated in a valley surrounded by lofty verdure-clad mountains, which lack the bold and rugged aspect of the Sierra. At the feet of the mountains lie the splendid orchards and vineyards which have made

THE GEYSERS

the Napa Valley famous. It would be difficult to find anywhere else in the world so excellent health-giving waters set in the midst of scenery so beautiful. These springs are also a winter resort of great prominence, and are one of the

objective points in the itinerary of Raymond and Whitcomb's winter excursions of Eastern people to California.

The White Sulphur Springs, on the same line of travel, near St. Helena, still retain all the popularity which in early days made them the principal resort for the fashionable people of San Francisco. This is one of the most delightful resorts in the State; and the new management, which has recently taken charge, may be depended upon to furnish the best accommodations. The natural attractions are unusually strong. Ætna Springs, sixteen miles from St. Helena by stage, are also very popular. Here are natural hot and cold waters for bathing and drinking purposes. The Calistoga Springs, at the town of Calistoga, show the general characteristics of the Soda Springs of Napa county, and possess rare healing virtues. Perched high in the mountains above Calistoga are the Harbin Springs. There are springs here of varying temperatures, one showing 118 degrees. There are many other hot and cold springs in this vicinity, including Adam's Spring, five miles from Glenbrook; Siegler Springs, two miles from Adams; Bonanza Springs, two miles from Siegler; Howard Springs, fourteen in number, two miles from Siegler, and 2,220 feet above the level of the sea; Anderson Springs, ten miles from the Great Geysers; Pearson Springs, fourteen miles from Lakeport; Witter Springs, one mile east of Pearson; Hot Borate Springs, near Lakeport; Highland Springs, four miles from

Kelseyville, famous for their douche bath; Cook's Springs, in Indian Valley, Colusa county, yielding hot sulphur and other mineral waters; Hough's Spring, in Lake county, thirty-two miles from Williams; Allen Springs, in Lake county, twenty-eight miles by stage from Sites, on the Colusa and Lake Railroad; Bartlett Springs, in Lake county, thirty-one miles by stage from Sites, and one of the most popular resorts in the State. The easier accessibility of Bartlett Springs within the last few years has served to increase the number, already large, of visitors who annually seek health and pleasure there. The water is cold (though heated for bathing purposes), contains soda, borax and iron, is heavily charged with carbonic acid gas, is cathartic, diuretic and alterative, and has a pleasant taste. A good hotel, a large number of cottages and excellent management assure the comforts of visitors.

The center of this remarkable region of volcanic springs is found in the cañon of the Little Pluton River, far up in the mountains in Sonoma county, 1,700 feet above the level of the sea, and distant one hundred miles from San Francisco. The railroad which passes Napa terminates at Calistoga, and thence a stage line runs to the Geysers, the most remarkable boiling springs of the world, apart from those in the Yellowstone Park and Iceland. The trip to the Geysers, both by rail and stage, presents a series of panoramic views of unparalleled splendor. Apart from Yosemite and the Hotel del Monte, in their way the two noblest attractions in California, the Geysers exercise a peculiar and absorbing fascination. In the Little Pluton cañon, embowered in a sylvan scene of singular beauty and repose, with the added massiveness of rounded mountain tops on either hand, there are one hundred springs of all sizes issuing from the fiercely hot interior of the earth. Surely the distance here from the surface of the earth to those terrific internal fires which formerly found vent in the great volcano now called Mt. Shasta cannot be great. This awe-inspiring phenomenon is now all that is left in activity of the violent volcanic disturbances which in the ages gone lifted California from the bottom of the Pacific. The waters range in character from that which is pure and cold to boiling caldrons of a black, thick liquid. There are cold soda springs and boiling alum and sulphur springs. Heavy deposits of sulphur, salts, ammonia, tartaric acid, magnesia, etc., cover the ground in places. There are intermittent boiling springs, from which jets of water and volumes of roaring steam issue at short intervals. The "Steamboat Geyser" is the most impressive of all, with its great body of steam thrown up under tremendous pressure, and with a heavy roar. There are hot and cold medicated baths, where remarkable cures have been effected. From innumerable fissures in the ground come jets of steam. The "Witches' Caldron" is over seven feet in diameter, and its depth has never been sounded.

The fourth leading place of resort in this part of the State is Clear Lake, about thirty-five miles north of Calistoga. The scenery which surrounds this beautiful sheet of water, compared with that of Lake Tahoe and its neighbors, presents all the striking differences between the Coast Range and the Sierra. At Clear Lake we find, instead of granite, snow-covered earth-giants arranged in wild and majestic disorder, finely rounded mountains and hills decked with verdure, and innumerable shady ravines and enticing nooks. The shore is singularly beautiful and gives an impression of infinite repose. The lake is between twenty-five and thirty miles in length, from ten to twelve miles in width, and thirteen hundred feet above the sea. Many pretty islands dot its surface, and charming towns line its shores. Among the latter are Lakeport, the county seat of Lake county, a town of great beauty. The big mountain Konockti bathes its feet in the waters. The Sulphur Banks, at the lower end of Clear Lake, and easily accessible from Lower Lake, afford one of the most interesting spectacles to be found in the State. Through a mass of porous earth hot sulphurous vapors continually force their way, depositing beautiful but fragile sulphur crystals on the surface. This curiosity is well worthy of a visit.

This account of the wonders of Lake county will close with a mention of the Blue Lakes, three in number, two thousand five hundred feet above the sea, twelve miles from Lakeport. There is much ruggedness of scenery, alternating with quiet wood pictures of exceeding beauty.

## AROUND SAN FRANCISCO.

**S**AN FRANCISCO itself is a suburb winter resort for residents of the Eastern cities; but as it has a fixed population of three hundred and fifty thousand, it, unfortunately, under the common interpretation of the term "resort," cannot be so classed. Evidence, however, of the great charm of its climate in winter is found in the fact that during those months which in the East are appropriately called "winter," San Francisco is always crowded with visitors. Apart from the strong and generally unique character of its attractions as a city,—such as its wonderful system of cable roads, its lofty hills, whose slopes and summits are lined with attractive homes, the close neighborhood of the two charming cities, Oakland and Alameda, and the near popular resorts, Sausalito and San Rafael, its beautiful land-locked harbor, its splendid park, with flowers in bloom throughout the year,—it has such attraction as an almost

VICINITY OF CLIFF HOUSE

unbroken succession of bright days, a fine bracing air, a complete exemption from epidemic and endemic diseases, and an energetic, virile population, whose zestful pursuit of pleasure is a natural consequence of its prosperity and health. The superb hotels and theatres of San Francisco are a marvel to the world; and within a radius of a few miles from its borders are many of the most noted health and fashion resorts on the continent. One of the chief attractions in the immediate neighborhood of San Francisco is Mount Diablo, a noble peak which rises from the Coast Range, east of San Francisco, and about thirty miles distant in an air line. A delightful trip is to leave San Francisco in the morning, quit the railroad at Martinez, take a team for the mountain, make the ascent (an easily accomplished task, as the road runs to the summit), and return to the city in the evening. The view from the summit is indescribably beautiful. San Francisco, Oakland, Alameda, and dozens of other towns and cities, nestle closely on the ground far below; and San José is visible in the distance. Far to the north and west are seen the snow-crowned summits of the Sierra, with grand old Shasta overtopping them all. Directly east of Mt. Diablo are the Byron Springs, noted for the medicinal virtues of their hot and cold sulphur, soda, iron and magnesia springs. They have also a natural hot mud bath, which has cured many a sufferer from rheumatic and other afflictions. Commodious bath-houses and good hotel accommodations are provided; and they are open the year round. We leave the Southern Pacific train at Byron station, some distance beyond Martinez, and take the stage thence two miles to the springs.

The Coast Division of the Southern Pacific Company is peculiarly favored, as it is the highway to some famous pleasure resorts. It runs south from San Francisco to

San Luis Obispo county, with short branches to Santa Cruz, the Hotel del Monte, Monterey, Pacific Grove and other resorts. Just south of San Francisco, it passes through a number of beautiful towns that are particularly noted for being the country homes of San Francisco millionaires, including San Mateo, Belmont and Menlo Park. Through the forests of oak we catch a glimpse of the Stanford Junior University; and there are many vineyards and orchards. Fifty miles from San Francisco is the charming city of San José, with its superb hotel and its numerous places of resort near by, including the Alum Rock Sulphur Springs and baths, in a pretty cañon, seven miles from San José. The road to the springs is finely macadamized, and is the fashionable drive of the city. It is at San José that we leave the railroad to visit the Lick Observatory, on Mt. Hamilton, twenty-six miles away. Hundreds of people throng to the Observatory every Saturday, on which day visitors are permitted to look through the greatest telescope in the world; and the use of the various instruments is explained by the courteous astronomers.

### THE SANTA CRUZ MOUNTAINS.

**I**N the Santa Cruz Mountains we find some remarkably enticing scenery. It is the famed "Shasta Route" on a small scale, lacking the superb grandeur of that scenery, but giving in its place some of the daintiest expressions of beauty that nature ever yields to her eager worshipers. The San Lorenzo River, shaded by great redwood trees, winds along now peacefully, and then in turbulent disorder; and near it are the Big Trees. The more famous groves of the *sequoia gigantea* are those of Calaveras and Mariposa; and next to these come the Big Trees of the Santa Cruz Mountains. The spot in which they stand is surpassingly beautiful. One of these giants is shown, in the hollow trunk of which lived a large family in early days. Fremont's cabin is near. These are favorite picnic grounds; and the trains always stop here for a considerable length of time. Throughout the whole of this mountain trip there are romantic spots which invite to rest. Beautiful streams of the purest water abound; and the waters are favorite resorts for the most expert fishermen of the State. Thousands of those whom an active city life has prepared to enjoy the luxuries which these mountains afford flock hither every summer, and hundreds of tents dot the mountain slopes and shady ravines. In these mountains is the world's greatest quicksilver mine, at New Almaden, easily reached by rail.

## MONTEREY AND ITS VICINITY.

**M**ONTEREY, a mile distant from the Hotel del Monte, although not strictly a resort, is so charming and interesting that we cannot afford to pass it unnoticed. It is the oldest town in the State, and many of its ancient adobe houses, built more than a century ago, are still standing, some in fine preservation and others in picturesque ruins.

Pacific Grove, three miles beyond Monterey, is a famous resort, particularly in summer. It nestles cozily in a great pine grove, is built on ground which rises gently from the bay to the summit of the peninsula, and is the ideal resting place for those who, caring nothing for the greater elegance of the Hotel del Monte, want to dream away a month of delicious repose. Bathing, moss-gathering and strolling along the rocky shore are favorite pastimes. El Carmelo, the modest sister of the Hotel del Monte, has an open pavilion, such as the Chautauqua Assembly and others. A superb assembly hall is provided for this purpose.

One of the most interesting of the attractions hereabout is the famous Eighteen-mile Drive, a splendid macadamized highway, starting from the Hotel del Monte,

SCENES AT MONTEREY

People of the more cultured sort, apart from those who pursue the lighter forms of fashionable pleasure, come hither by thousands; it is the resting-place of artists, teachers, musicians, literary people and brain-workers in general. As a consequence there are held here during the summer a large number of important con-

SANTA CRUZ

SANTA MONICA

passing through Monterey, crossing over the neck of the peninsula to Carmel Bay (passing the famous old Carmel Mission, not far away), and thence skirting the entire peninsula, passing, on the way, the curious gnarled cypress trees, which are peculiar to this little corner of the world; some charming beaches, which yield marvelous mosses and pebbles; the seal rock, upon which thousands of seals scramble and bark; the great reservoir, which supplies Pacific Grove and the Hotel del Monte with water; Fremont's old fort, and then Monterey again.

While in this part of the State we may visit the Gilroy Hot Springs, reached by stage from Gilroy. This is a famous resort for invalids and pleasure-seekers. The hot mineral waters possess exceptional healing powers, and are useful both for drinking and bathing. The springs are beautifully situated in the Coast Range; and the hunting and fishing thereabout are an irresistible temptation to those who enjoy that kind of sport. The Madrone Mineral Springs, six miles north of the Gilroy Hot Springs, are also very popular. The Tassajara Springs, in Monterey county, are largely visited. Game and fish abound in all of this country bordering on the Bay of Monterey.

SANTA YSABEL

The Coast Division of the Southern Pacific continues its course southeastwardly through Monterey county, and terminates in San Luis Obispo county, traversing the rich, broad valley of the Salinas River. We shall find rare beauties all the way; but our first objective point is the Paraiso Springs, seven miles by stage from Soledad. These yield hot soda and sulphur waters, and are very popular. Pursuing the journey on the Coast Division, we arrive at the Paso de Robles Hot and Cold Sulphur Springs, in the northern extremity of San Luis Obispo county. Thousands of remarkable cures have been effected by the use of the waters which these noble springs yield. Not far from Paso Robles are the curious Santa Ysabel Springs, which lately have come into prominence. They yield hot sulphur water. In pre-historic times this must have been a great health resort, as the ruins of ancient dams are visible. Within the last few years the place has been improved with gardens and drives, and by the construction of an artificial lake of the warm spring water, where the visitor can indulge in a most enervating swim.

## YOSEMITE AND THE BIG TREES.

**OF** course the crowning glory of California's natural attractions is the Yosemite Valley; and no real visit to the State can be made without seeing this marvelous creation. As no other natural wonder in the world has been so often and ably described as this, we shall do hardly more than mention it. To reach it, we cross the bay from San Francisco to Oakland, and there take the Southern Pacific Company's train by way of Martinez and Lathrop. Here we enter the great San Joaquin Valley, the southern end

THE YOSEMITE VALLEY

of the vast interior basin of which the Sacramento Valley is the northern end. On the right, toward the west, lies the Coast Range, low and dark, and on the east the towering Sierra Nevadas, whose giant peaks are forever covered with snow. It is into the heart of these snow-clad summits (though below the line of perpetual snow) that we must penetrate to find the Yosemite Valley. We leave the main line at Berenda, one hundred and seventy-eight miles from San Francisco, and take a branch railroad, called the Yosemite Division, which runs eastwardly into the Sierra foothills to Raymond, twenty-one miles from Berenda. Here we take the stage for the Mariposa Big Trees and Yosemite. The ride is superb; for as the road, with thousands of turnings and twistings, rapidly climbs the Sierra, it brings into view a series of scenic wonders and beauties which only these extraordinary mountains disclose.

The Mariposa Grove of Big Trees is on the way to Yosemite; and the visitor to the valley cannot afford to let these monarchs of the forest pass. The Rev. T. De Witt Talmage says of them: "Who that has seen them can think of them without having his blood tingle? Trees are now standing there that were old when Christ lived. These monarchs of foliage reigned before Cæsar or Alexander; and the next thousand years will not shatter their scepter. They are the masts of the continent; their canvas spreads on the winds while the old ship bears on its way

through the ages. Their size, of which travelers speak, does not affect me so much as their longevity. Though so old now, the branches of some of them will crackle in the last conflagration of the planet."

We find ourselves at last on Inspiration Point, gazing down upon the incredible wonders of the Yosemite Valley,—a long, irregular chasm in the heart of the mountains. Stupendous walls of granite in grotesque and suggestive forms inclose the valley; and far down a beautiful sparkling river winds gracefully through the floor of the valley. The snows of the Sierra, slowly melting, collect into rivers, and these plunge headlong into the valley over the towering ledge of the granite wall. "That valley of the Yosemite," says Dr. Talmage, "is eight miles long, a half mile wide and three thousand feet deep. It seems as if it had been the meaning of Omnipotence to crowd into as small a space as possible some of the most stupendous scenery of the world. Some of the cliffs you do not stop to measure by feet, for they are literally a mile high. Steep, so that foot of man nor beast ever scaled them,

they stand in everlasting defiance. If Jehovah has a throne on earth, these are its white pillars. Standing down in the immense chasm of this valley, you look up and wonder at Cathedral Rock, vast, gloomy minister, built for the silent worship of the mountains. Yonder is Sentinel Rock,—three thousand two hundred and seventy feet high—bold, solitary, standing guard among the ages, its top seldom touched, until a bride one Fourth of July mounted it and planted the national standard, and the people down in the valley looked up and saw the head of the mountain turbaned with the Stars and Stripes. Yonder are the

THE BIG TREES

thysts, the water in diamonds. That cascade flings down the rocks enough jewels to array all the earth in beauty, and rushes on until it drops into a very hell of waters, the smoke of their torment ascending forever and ever."

Three Brothers, four thousand feet high, Clouds' Rest, North and South Domes, and heights ne'er captured save by the bayonets of the thunder-storm. The Bridal Veil Fall, so thin that you can see the face of the mountain behind; yonder are Yosemite Falls, dropping two thousand six hundred and thirty-four feet—sixteen times greater descent than that of Niagara. These waters are dashed to death on the rocks, so that the white spirit of the slain waters, ascending in a robe of mist, seeks heaven. Yonder are Nevada Falls, plunging seven hundred feet, the water in arrows, the water in rockets, the water in pearls, the water in ame-

### OTHER SIERRA WONDERS.

**O**THER wonders abound in the Sierra. The Hetch-Hetchy Valley, on the Tuolumne river, sixteen miles in an air-line from Yosemite, is almost as marvelous as its better known sister. Its general character is the same, but it is smaller. Towering domes, stupendous cliffs and lofty waterfalls exist here as at Yosemite; and we shall be well repaid for a visit to this enchanted spot. It is hardly so easy of access as Yosemite, and is not so much visited; but for all that it is one of the wonders of California. The Calaveras Grove of Big Trees likewise demands our attention. It is reached by stage from Milton, which connects with San Francisco by rail. While in the vicinity we may pay a visit to the Wonderful Mammoth Cave of Calaveras, fourteen miles distant from the Big Trees, or seven miles from Murphy's. The Crystal Palace Cave, which has a hotel at its mouth, is not far from here. It is southeast of Murphy's, just across the Stanislaus River, and five miles north of Columbia, a stage station. Two natural bridges in this vicinity, one of them a remarkable formation, deserve a visit. A comparatively little known scenic marvel of the Sierra is the King's River cañon. We may hire horses and reach it from either Fresno or Visalia. Here the scenery is wilder, grander and more picturesque than at Yosemite: but the valley, though very long, is little more than a gorge, the scenery lacks the finer finishing touches of Yosemite, and wonderful waterfalls are absent. The towering needles, domes and cliffs of granite pierce the sky thousands of feet above the floor of the valley, conveying an impression of the wildest and fiercest desolation. The finest fishing in this part of the State is found here; and those who are hardy enough to tempt fate in the form of a grizzly may find abundant opportunity. The Kern River cañon, further south, but also opening into the great interior basin of the State, is probably equally as wonderful as the King's River cañon, but comparatively little known.

### BEAUTIES OF THE SOUTH.

**E**VERYBODY has read of Southern California; and little can be said of interest in addition to the volumes which have been devoted to descriptions of these incomparable charms. Since Santa Barbara has been made accessible by rail, we may make it a flying visit. Hard and unresponsive indeed must be the nature which fails to be touched and quickened by the infinite

LONG BEACH

charms and graces of this favored spot. The climate is a perpetual spring; and tropical fruits ripen throughout the year. The city rises from a pleasant beach to the slopes of the Santa Ynez Mountains, and faces the south. The shore line runs east and west; the mountains shelter the town from the trade-winds. There are superb hotels here, including the Arlington, San Marcos, Commercial and others. To the north tower of the castellated crags of Santa Ynez, to the east and west stretch long vistas of beach and valleys, and to the south is the grand old ocean, with the beautiful islands of San Miguel, Santa Rosa, Santa Cruz and Anacapa rising from its depths. Four miles from Santa Barbara is the charming resort, Montecito, with its springs. Back of Santa Barbara is the Ojai Valley, noted for its health-giving climate, and also for the Ojai Valley Springs at Nordhoff. This is a fine health resort.

Upon going to Los Angeles we find ourselves in the center of a delightful country. The city itself is beautiful; but a knowledge of its charms is common property. It is one of the most popular places of resort in California for Eastern

PALM VALLEY

people. Back of it rise the San Gabriel Mountains, from whose western slope roll thousands of acres of orchards, vineyards and orange groves toward the sea. At the base of these mountains sits the beautiful town of Pasadena, which has more wealth and refinement in proportion to its population than can be found elsewhere in the State. On the slope is the famous Sierra Madre Villa, a charming and popular resort, with a fine hotel; and near Pasadena is the superb Hotel Raymond. On the coast, eighteen miles from Los Angeles, situated on noble bluffs overlooking the sea, is Santa Monica, a famous seaside resort, with a fine hotel, and surf-bathing all the year round. A railroad running directly south from Los Angeles brings us to Long Beach, on the coast,—a popular resort for literary and other cultured classes, and the meeting-place of the Chautauqua and other societies.

In San Bernardino county we may leave the Southern Pacific at Colton and make a short run to Riverside, the fame of whose oranges is known all over the world. A charming country is this, and one which, as travelers, we cannot afford to miss. The delights of San Diego, with its splendid climate, and of the Hotel del Coronado, that splendid structure with noble grounds on the Coronado Beach, are well known to all of us.

A desire to see the strange and peculiar beauties of Palm Valley tempts us to follow the Southern Pacific into San Diego county. Leaving the road at Seven Palms, we find near by a singular gorge in the San Jacinto Mountains. The tall granite mountains rise abruptly on either hand; and the floor of the valley, for miles into the mountains, is covered with native palms of a height ranging from seventy-five to a hundred feet. A rich tropical undergrowth completes the picture. There are hundreds of these stately palms; and annually they are loaded with palatable fruit of the date variety. In the midst of this valley is a large hot mineral spring inclosed in a natural basin one hundred and fifty feet in diameter. The water is pushed up in a great column; and wonderful cures for rheumatism, sciatica and kindred afflictions have been effected by bathing in this pool.

After leaving Seven Palms we travel a few miles southeastwardly on the railroad and then encounter the singular experience of dropping below the level of the sea. Indio is twenty feet below, and a short distance beyond we touch the lowest point, two hundred and sixty feet below, at Fink's. This is an arid country, there being no natural vegetation; but where water is artificially applied there appears to be no

limit to the fecundity of the soil. Indio is rapidly coming into notice as a place where astonishing cures have been made by the dry, pure air. For those suffering with pulmonary affections this undoubtedly is an earthly paradise. Returning, we must stop at Colton and visit a celebrated resort, the Arrow Head Springs, near San Bernardino, which are annually visited by thousands of health-seekers.

Unless we be controlled by a desire to visit the more fashionable and popular resorts, where the highest and finest luxuries of our civilization are provided at a reasonable charge, we may find with little trouble quaint, charming, out-of-the-way places without number, where gentle Nature paints her pictures and sings her songs forever. Wonders abound. Some have a home and must be sought; others abide everywhere, and constitute the life and essence of almost universal health, happiness and prosperity. Not to see California and its wonders; not to constitute a part of it; not to be a child of this infinitely gentle mother; not to be here and enjoy these bounties and blessings, to the end of securing greater prosperity and happiness,—is to be denied a priceless privilege; for in the possession of these natural charms California stands wholly alone in the world. Nature flings open our doors, and with an alluring smile invites us to leave our houses and go to the woods, the mountains, the fields, the seashore, showing in all her moods of fretfulness or repose that though her duties are as boundless as the universe, her heart and home are in California.

### HOW TO REACH CALIFORNIA.

PEOPLE of delicate health, invalids, convalescents, tourists and pleasure-seekers residing in northern latitudes often turn their thoughts, fancies and desires to balmy and more congenial climes. This naturally induces the query, "Where, and how shall we go?" The question is easily answered—to California. The beauties and boundless natural resources of California, the "Cornucopia State," have been graphically memorialized in verse and prose by our eminent poets and authors. Its rapidly growing popularity as a sanitarium and tourist resort is a convincing evidence that the beneficial and climatic influences of the Pacific Coast are becoming universally conceded. Having discovered the desired haven of health, rest and pleasure, the important question of transportation presents itself. In deciding upon a route via which to travel to the Pacific Coast, one should be selected which possesses the advantages and comforts which tourists so much desire. The "Sunset Route" of the Southern Pacific Company affords to the traveler incomparable climate, balmy atmosphere, beautiful, historic and romantic scenery, and every modern convenience, comfort and luxury. This great line reaches from New Orleans to San Francisco.

The "Central Route," or as it is more commonly called "The Pioneer Line," reaches California by way of Salt Lake City and Ogden, Utah, and passes through the Grand Sierra Nevada Mountains. The "Shasta Route," or "Great Scenic Line" of the Pacific Coast, reaches California by way of Portland.

In selecting either of the above-named routes, tourists and pleasure-seekers may be assured of courteous attention, and every facility to make the trip pleasant and enjoyable.
